JE and JP Gold and Carat Balances Everyday Weighing Essentials

Solid Performance

With a metal base, stainless steel weighing pan and overload protection, these robust balances withstand intense daily use. The high stability ensures fast results.

Efficient Daily Tasks

With just the essential functions you need, balance operation is quick and easy. Internal test weights make it simple for you to test and adjust your balance at any time with just the touch of a button.

Easy Levelling

Levelling your balance is easy thanks to large adjustable feet. The level indicator is at the front so it is easy to check the level and ensure your balance is working accurately.

Weighing Hook

The hook on the base is perfect for weighing big items below the balance. With the built-in application, this technique can also be used for measuring the density of larger items of jewelry.

All the Basic Functions You Need For Accurate Jewelry Weighing

JE balances fulfill all your daily jewelry weighing requirements with simple and reliable balances. Enjoy the large, bright screen and have all essential balance functions at your fingertips.

Thanks to the internal test weights, you can test and adjust your balance at any time with just the touch of a button to ensure ongoing accuracy.

The solid construction provides high stability to ensure fast results and prevent the balance from moving if accidentally bumped. Built from high quality materials, JE balances will provide you with years of reliable service.

PIONEER® PJX SERIES

Carat and Gold Jewelry Balances

Modern Compact Jewelry Balances for Accurate Weighing of Precious Metals and Stones

The PJX Series offers a range of Jewelry Balances for weighing precious metals and stones in a variety of capacities and readabilities. The PJX Series is OIML-approved and ideal for legal-for-trade applications. The PJX features an auxiliary display that can be easily connected to provide simultaneous viewing of results for both trader and customer. Select models come with a built-in internal adjustment system.

Standard Features Include:

- **Backlit LCD and Auxiliary Display Available for Clear Viewing of Weighing Results**
The PJX features a bright backlit LCD which displays results clearly. An auxiliary display can also be connected to allow both customer and trader to view weighing results simultaneously.
- **Compact Modern Design Fits Right on the Workspace**
The PJX Series comes in a modern compact design, which is designed with saving space in mind. Additionally, keeping the draftshield lowered will help to get more stable weighing results.
- **Ideal for Legal-for-Trade Applications with OIML Approvals**
Select PJX models come with a built-in internal adjustment system, which calibrates the balance automatically, ensuring weighing accuracy at all times.
- **Equipped with Density Determination Mode for Accurate Pricing**
The PJX features four weighing modes, including the Density Determination mode, which allows the user to test the density of unknown materials, and determine the type of material and its cost accurately.

PIONEER® PJX SERIES *Carat Jewelry Balances*

Durably constructed of cast metal lower housing, metal sub-pan and stainless steel weighing pan for long-term use.

Large viewing angle with bright backlit LCD display.

An auxiliary display can be easily connected to provide simultaneous viewing of results for both trader and customer.

Connectivity options include standard RS232 to connect a printer, and Mini DIN port to connect to an auxiliary display.

Four quick keys enable easy operation of weighing modes, including the Density Determination mode.

BLUE STARS INSTRUMENTS

Manufacturing, Dealer And Repairing Of All Kind Electronic Weighing Scale

License No : Manufacturing LM/MH/LM/231, Repairing : LM/MH/LR/338, Dealer : LM/MH/LD/282,

We, Blue Star Instruments take this opportunity to introduce ourselves based in Mumbai, dealing in Electronic Weighing Machines as we thought it fit to serve the industry with our past 10 years of experience in this industry

Our models are approved by the department of Weights and Measures, Ministry of Civil Supplies, Govt. Of India.

Our main aim is to provide customized solutions to meet our customers' exact requirements, as weighing is very essential and an integral part of the production and operation processes in most of the industries. We believe in providing time-bound services to our valued customers.

Top Scales

- ✓ Hi-tech micro controller based technology with fast response
- ✓ Ultra bright display, easy to read.
- ✓ Accumulation of weight in memory.
- ✓ Auto zero tracking.
- ✓ Sturdy Metallic enclosures.
- ✓ Removable stainless steel weighing platter.
- ✓ Inbuilt battery backup with SMF rechargeable battery.
- ✓ Piece counting facility.
- ✓ Overhead Protection
- ✓ Low power indication
- ✓ Battery mode led indication

SLA SERIES

ZEN SLA 6-4.5 (6V 4.5AH)

Our SLA series of VRLA battery use AGM technology and high-purity lead calcium alloy.

ZEN SLA series has excellent floating back up and outstanding current discharge Performance which makes it optimal and economical choice for wide range of application

Benefits

- Design for operation in any orientation
- Easy handling and no installation skill
- Supplied in Ready to use form
- Wide range of application
- Compact design with high power to weight ratio

Application

- Epabx electrical weighting scale
- Alarm & Security System
- Medical & Office equipment
- Telecommunication systems
- Alarm & Security System
- Elevators & escalators

Specifications Table

Battery Model	ZEN SLA 6-4.5			
Design Life (years,25.C)	18 months to 36 months			
Basic Specification	Container Material : ABS terminal Type : F1			
	Nominal Voltage (V) : 6 Volts Approx Weight (±0.1kg) : 0.80kg			
Capacity (Ah, 25°C)	20HR (0.22A, 1.75V)	10HR (0.40A, 1.75V)	5HR (0.73A, 1.75V)	1HR (4.54A, 1.70V)
	4.5	4.1	3.8	2.7
Dimensions (+/- 2mm)	Length	Width	Height	Total Height
	70	48	102	107
Reference Internal Resistance	35 (full charged @25°C)			
Maximum Discharge Current (A/5 Sec.)	60			
Maximum Charge Current (A)	1.35			
Self-Discharge (25°C)	≤ 3%of capacity decline per month at 25°C			
Operating Temperature Range °C	Charge	Discharge	Storage	
	0°C - 40°C	-15°C - 50°C	-15°C - 50°C	
Charge Voltage (V/cell, 25°C)	Cycle Lse		Float use	
	2 45 (- 4mV/-C/cell)		2 27 (- 3mV/-C/cell)	
Short Circuit Current (A)	190			

ABC STORED PRESSURE

Faster than fire

IS:15683:2018

CML : 2927672

POWDER

Stored Pressure, 1kg, 2kg, 4kg, 6kg and 9kg

Powder fire extinguishers are ideal for use on Class A, B and C Fire Risks. The SAFE PRO Powder fire extinguishers are available in 1kg, 2kg, 4kg, 6kg and 9kg standard versions

- > ISI Marked
- > 1 year warranty
- > Safe for use on live electrical equipment
- > Squeeze grip operation
- > Fully refillable
- > Controlled discharge
- > Supplied with wall bracket
- > Full range of spare parts are available

1 kg

2 kg

4 kg

6 kg

9 kg

TYPE 'A' FOR USE ON PAPER, WOOD, CLOTH, PLASTICS ETC.

TYPE 'B' FOR USE ON PETROL, OIL, PAINTS, SPIRIT, CHEMICALS ETC.

TYPE 'C' FOR USE ON COOKING & WELDING GAS, ELECTRICAL FIRE ETC.

LIVE ELECTRICAL EQUIPMENTS

Thank
You!

For Supporting Us

We are also providing service to all brands.
We will be happy to serve you within shortest period.

If you are happy, we will be very grateful for your review.
